Engagement Throughout the Year

APHSA is committed to communicating often and clearly the protocols we will follow for each event. We remain committed to the safety and well-being of attendees at our in-person events as our top priority. We strongly encourage all who attend APHSA events to be up to date on their COVID-19 vaccinations, as defined by the CDC, and monitor their well-being at the time of the meeting. Masks are welcome but not required. This policy can change based on local jurisdiction protocols.

We will have the Conference App to provide attendees access to the schedule and speaker information, sponsor materials, and attendees plus so much more. We will continue having our “Ask Abby” chatbot to provide quick answers on the website that can help with registration, agenda, and sponsorship information.

Taking advantage of sponsorship opportunities will translate to substantial exposure and brand awareness throughout the conference season—from the initial marketing phase to the event itself to after the event.

Sponsorship opportunities can be customized to fit a wide range of goals and budgets. Our sponsorship team will work with you to meet your specific goals.

Throughout our face-to-face conference year, APHSA brings together more than 3,500 members, human services executives, thought leaders, visionaries and allied organizations. In 2023, we will host four in-person events. In addition, the content from these events will be offered on-demand afterward for the professional development of your middle to frontline teams.

APHSA Affinity Groups

APHSA houses several human services disciplines whose members are the administrators that operate agency divisions or departments in the states and localities and, for the most part, report to a commissioner. The affinity groups cover a range of program specializations as well as support functions. APHSA members support the Association's policy work by providing critical insight and expertise in their subject area and developing detailed policy and practice recommendations. Below are the descriptions of those included in the year-round conference sponsorships.

American Association of SNAP Directors (AASD)

AASD was formed to strengthen the administration and management of the Supplemental Nutrition Assistance Program and contribute to the professional development of its members.

AASD promotes the exchange of experience and knowledge among those agencies of federal, state, and local government administering SNAP by providing expert advice and consultation on SNAP and other income and nutrition assistance issues.

National Association of Public Child Welfare Administrators (NAPCWA)

NAPCWA provides national leadership for the development of sound policy, successful and innovative practices, and critical capacity building to improve agency performance and consumer outcomes.

NAPCWA represents state and local public child welfare agencies through their child welfare administrators, deputies, and other child welfare agency staff that envision a safe and loving public child welfare system to provide children with permanent homes and support in their social and emotional growth and development.

National Association for Program Information and Performance Measurement (NAPIPM)

NAPIPM is the only national organization dedicated to assisting professional public human service agency staff and other stakeholders who assess and improve program information, performance, and outcomes. The purpose is to achieve better outcomes for those served by human service benefit and support programs by strengthening program integrity, accountability, data analysis, and outcome measures. We strive to promote and enhance excellence and integrity in the development, collection, analysis, and evaluation of program data, outcomes, and performance information for use in informed decision-making, planning, and administration of public human services programs.

National Association of State Child Care Administrators (NASCCA)

The NASCCA affinity group was established in 2000 to enhance and sustain legislative, regulatory, and fiscal policies supporting effective childcare programs.

NASCCA supports state and local leaders in developing childcare resources designed to meet the needs of children from birth through school age and their families. With a focus on quality and access, NASCCA works to build a childcare system that invests in children's well-being and potential through safe and affordable care that meets the developmental needs of young children.

National Association of State TANF Administrators (NASTA)

NASTA provides national leadership for the development of sound policy, successful and innovative practices, and critical capacity building to improve agency performance and consumer outcomes. NASTA promotes informed decision-making through the distribution of best practices and research to enhance the professional development of both its members and the federal policy-making process.

NASTA members are public administrators and other officials who are committed to developing, implementing, and evaluating Temporary Assistance to Needy Families (TANF) and related economic support programs that are responsive and accountable to the needs of the communities and the people they serve.

National Staff Development and Training Association (NSDTA)

NSDTA builds professional and organizational capacity in human services through a national network of members sharing ideas and resources on organizational development, staff development, and training.

The purpose is to support persons responsible for human service training and organizational development on the local, state, or federal level.

Reminder! The sponsorship offerings listed in this document exclude the 2023 ISM + PHSA Education Conference & Expo, which will be held September 10 – 13, 2023, in Kissimmee, Florida.

IT Solutions Management for Human Services (ISM)

ISM is a group of Human Services Information Technology (IT) professionals representing federal, state, and local governments, from the U.S., its Territories, Canada, other countries, as well as the private sector.

Public Human Services Attorneys (PHSA)

PHSA is a professional organization of attorneys who represent the state and local government agencies that administer human services programs. PHSA facilitates the exchange of information between attorneys and promotes innovation in the field of human services.

The purpose of the PHSA is to encourage the discussion of legal matters pertaining to human services and the cordial exchange of experience and knowledge related to the development of sound public policy.
